

1: Castors

All mobile units are fitted with 125mm Tente castors manufactured to EN 12530. Castors are chosen for roll performance, movement noise, attrition and corrosion resistance.

Swivel and swivel with lock, housing and wheels made from high grade synthetic materials, double ball bearing swivel head, bolt hole. Wheel centre made of Polypropylene, Tread: TENTEprene (thermoplastic rubber), grey non marking, precision ball bearing. Non static.

2: Base Frame

Fully welded mild steel 50mm x 30mm x 1.5mm rectangular box section, electrostatic coating, with fully enclosed protective base panel.

3: Buffers

The Medstor Module Cart is equipped with four non marking Polyolefin polymer alloy bumpers clipped and screwed onto the fully welded base structure.

4: Profiles, Drawer Fronts and Side Panels

Lightweight anodised aluminium profiles 48mm x 22.5mm with a general wall thickness of 1.5mm diameter are designed to secure panels from 6mm to 18mm thickness enabling the cart to be configured using: Laminated MDF, closed cell polymer boards and a full aluminium option.

5: Drawer Sides

Drawers are complete with a pair of Accuride steel telescopic runners fitted to formed and coated mild steel tray support cradles, which carry the system baskets/trays. The telescopic runners hold up to a maximum weight loading of 45kgs. Telescopic runners allow full withdrawal of the basket/trays to enable filling to the rear.

Roller Shutter (See page 12 for full details)

Fitted using the E23 ultrasonic welded slat type as standard with caddy breaking system applied to the coil.

Medstor Module Carts offer the ability to build for the environment, embellish for style and equip for purpose.

6: Working Tops

Seamless, robust and recessed acrylic capped ABS top can be fitted on as standard (max load 45kgs). Formed / recessed stainless steel option also available.

7: Accessory Fittings

The Medstor Module Cart is complete with a "T Slot" accessory facility. A smooth flat oval handle and multiple accessory rails slide into the upright.

8: Medstor Liner System

Fitted to either side for horizontal container storage with options on angled or horizontal tilt arresters. Optional Medstor rolling arresters can be fitted to ease tray withdrawal for all options.

9: Optional Locking Systems

1. Push button keyless code lock with SPL push release button.
2. Proximity locking solution.
3. Suited claw lock key option.

10: Trays & Dividers

The Module Carts are built around the Medstor module tray and divider system. The Medstor trays/drawers are complete with both length way and width way dividers that interwork to create multiple compartments to facilitate dual bin operations.

Dividers can also be scored and snapped and used in conjunction with a system 'T' clip to create even smaller configurations. System label holders are available as standard.

Specifications...

Medstor Module Carts offer the ability to build for the environment, embellish for style and equip for purpose.

Module Drawer Carts:

Code	Tray Configuration	W	D	H
MC65001060	6 x medium	730	530	1125
MC65001013	1 x medium, 3 x deep	730	530	1125
MC65001032	3 x medium, 2 x deep	730	530	1125
MC65001122	1 x small, 2 x medium, 2 x large	730	530	1125
MC65001231	2 x small, 3 x medium, 1 x deep	730	530	1125

Customise With Accessories...

With the ever changing demands of healthcare equipment in mind the carts can be retro fitted with additional accessories simply mounted to the aluminium tool bar or fixed directly into the 'T' slots.

Glove Box Holder
For quick and easy dispensing of gloves. For boxes sized 110-150mm, robust design for healthcare environments.

Code: MM4479C

Accessory Rail / Tool Bar
Height adjustable bar used for fitting any number of accessories. Removable for hygienic deep cleaning.

Code: MM4479B

Sterile Gel Holder
Hand sanitiser bottle is mounted safely to the cart frame to avoid spillages whilst providing easy access.

Code: MM4479E

File Holder
Removable, hook over fitting gives open access to allow storage of A4 ring binders and foolscap notes.

Code: MM4479F

Hook
Multi-purpose hook fits to the cart's side profile.

Code: MM4479H

Drop Down Worktop Extension
Fold down surface ideal to provide additional work surface space.

Worktop material specification:
Laminate, MDF or Solid core laminate.

Code: MM4479G

Tablet Holder
Clamps your Tablet securely in place.

Code: MM4479P

O2 Holder
Mounts the tank securely to the cart. Includes fixing clamp to stop rattling in transit.

Code: MM4479N

Airway / Bougie Holder
Securely stores Bougie or Airway tubes to preventing any bending or kinking.

Code: MM4479J

PC / I.T. Arm
Adjustable computer arm securely locks laptops and tablets into place.

Code: MM4479L

Tilt Bins
Removable plastic distribution containers fit to Overbridge unit.

4 Bins: MM4479K4
6 Bins: MM4479K6

Overbridge Unit
Extends above the cart to provide storage for Tilt bins.

Code: MM4479K

Chart Board Holder

Fold down surface for taking patient notes includes fixed paper holding clip.

Code: MM44790014

Handle

Removable, height adjustable bar handle provides balanced cart handling.

Code: MM4479A

Universal Bracket

Removable bracket can hold different sized safety disposal containers securely to the cart.

Code: MM4479D

Defibrillator Platform

Safe Defibrillator storage with quick access for emergency situations.

Code: MM4479M

IV Pole

Stainless steel fully height adjustable design fits bags via top loop section.

Code: MM4479I
