

*SmartCell® delivers industry leading open wire storage allowing for easy identification of materials, through quickly adjustable storage compartments. Ultimately increasing the efficiency of materials management and nursing staff alike.*

- + Hospital grade chrome plating prevents sharp edges on open wire mesh baskets.
- + Wire mesh baskets prevent the accumulation of dirt and debris, leading to better aseptic practices.
- + 12" and 18" Fine mesh wire baskets come in lengths of 18" and 36" suitable for mounting on louvered panels or cantilever pedestal frame.
- + Four different adjustable dividers provide endless variation to storage space and also create opportunity to implement lean inventory management practices, such as KanBan and Par level systems.
- + Pedestal frames and louvered panels are finished with industrial strength powder coat to enhance the durability and longevity of the finish.
- + Bottom dust shelf/cover provides a barrier and protection to bottom basket contents, maintaining Joint Commission standards.
- + Full length label holders are available, as well as our snap and release label holder that provides color coded storage options for various departments.
- + Optional mobile bracket attaches to pedestal frame and allows the units to be moved for cleaning/ maintenance or relocation.
- + SmartCell is a registered trademark of Technibilt, a Wanzl Company

## CASTERS

Casters are mounted to  $\frac{3}{4}$ " steel bar, to provide a larger footprint and prevent units from becoming top heavy. Med-Glide Plus casters resist oxidation and rust, due to their fiber reinforced plastic structure. They require no maintenance for optimum performance and reliability. Caster size is 4" x 1  $\frac{1}{4}$ " with a weight capacity of 330lbs. for static loads and 200lbs for dynamic loads.

## CONSTRUCTION

Cantilever leg frames are constructed from 1" x 2" boxed steel and finished in a cool gray powder coat. The rectangular uprights are notched and numbered on 1" increments to accept the basket hang bar.

## BASKETS

The basket hang bar connects to each upright, providing added security and extra weight capacity over the traditional basket mounted end supports. Baskets are available in fine mesh with  $\frac{1}{2}$ " square openings and a medical grade nickel chrome finish.

## SOLID SHELVES/DUST COVERS

Solid shelves/Dust Covers are constructed from solid, powder coated steel and feature turn down edges to provide additional rigidity.

## LOAD CAPACITY

Carts are rated at 100lbs. per basket, but total cart capacity should not exceed 500lbs. Weight capacity should be evenly distributed along each basket, as well as the unit as a whole.

## 6 BASKETS

SmartCell® Unit comes complete with 1 single sided frame, solid bottom dust shelf, 3-12" deep baskets, 3-18" deep baskets and 6 frame mounted basket hang bars. Add-on units have only 1 frame upright.

\*Mobile Brackets and optional accessories sold separately

PART #	DESCRIPTION	DIMS
HSC186S	SmartCell Starter Unit 18" Wide Single Sided	19.5" x 21.5" x 74"
